Notes and Comments

Faxed Market Reports:

We want to stress that we will continue forever to fax market reports to anyone without access to email.

But we would like to switch as many people as possible from fax to email.

We are currently faxing 65 market reports each auction day and also delivering 297 by email.

However, on a typical day we have to send over 200 fax transmissions to complete the 65 faxes. This takes 2 to 4 hours.

Compared to email, fax is expensive, time consuming, error prone, ties up phone lines, and can be intrusive if received in a private home.

Anyone that can, please contact us to be switched to email.
